Vision

Our school has set a vision with which it would forge ahead to meet the aims of Education. The vision with which our school works is -

-  **To train to be Good Human Beings and Responsible Citizens**
-  **To instill the Spirit of Confidence, Creativity and Self Discipline.**
-  **To Develop Physical, Social, Scientific and Artistic Skills.**
-  **To make the School a centre of Academic Excellence.**

Mission

-  Our mission is to develop young students with active and creative minds, a sense of understanding and compassion for others and the courage to act on truth. We are committed to help the students to explore their potential to face an ever changing society and dedicated to serve them with the understanding of the diversities. We stress on the holistic development of each child: spiritual, moral, intellectual, social, emotional, and physical. Within a caring environment, they are prepared to take appropriate risks equipped with ethics and values. Students' knowledge, skills and scientific temperament are honed to make them personally fulfilled, interdependent and socially responsible.

-  Beyond academics; sports and games, community service, and co-curricular activities are conducted round the year to foster self-esteem, positive relationships and leadership among the students. Parents, teachers, principal, local managing committee and community members actively involve for the holistic development of the child. Different competitions on current issues in the national and global scenarios pave way for them to be global citizens and create a better world. We share different cultural backgrounds to nurture growth, co-operation, tolerance, harmony and love for the nation by celebrating our diversities. Thus we focus on the whole child.

Dear Parents (pg1)

Every organization as part of its life cycle constantly engages in the four essential functions of management – planning, leading, organizing and controlling. The foremost of this is planning. Our school takes initiative to meticulously plan objectives and goals for the day-to-day activities as well as the broader long-term initiatives for the holistic development of the students.

The Year Planner 2020-21 highlights the schedules of the activities to be conducted round the year to explore and expose the talents of the students. It covers the details of scholastic and co-scholastic activities to help students prepare well towards harmonious development of the physical, intellectual, emotional, spiritual, moral and aesthetic sides of human personality in order to live happily and successfully and makes him a worthy and contributing citizen.

Parents are requested to get familiar with the happenings at the school and extend their cooperation for smooth functioning of the school. The planner will help them to prepare their wards to be punctual and regular in attending classes and encourage them to participate in co-curricular activities to bring out the best in them.
